## Director's Note:

Dear Friends,

Welcome to the apartment of Bernard, an American architect living in Paris in the “swinging” sixties. His well-planned life is about to be changed by the “jet age”

A community theater production starts months in advance. Auditions were held back in May and a cast was selected. Over the past twelve weeks, lines were learned. Costumes were made, bought and borrowed. Props were found. A set was constructed and decorated. Lights were hung and publicity set up. All the people who did these things were volunteers, people who took time out of their busy lives to bring this production to you here today. You may admire the actors on stage but it takes many many people to bring a production like this to life

I want to thank them all for their hard work and perseverance through the long process. I need to thank Bob Tuttle and Pete Ellis whose hard work and sense of humor have kept the process moving along no matter what obstacles were thrown in our way.

Lastly I would like to thank you for coming and supporting live theater here in Wolfeboro NH, so sit back, relax and enjoy the show

Russ Ellis

### **Setting:**

Act I: Paris Early 1960s; Bernard's apartment; early in the morning.

Act II: Same day in Bernard's apartment in the afternoon.

Intermission: 15 minutes

Act III: Same day in Bernard's apartment, later in the evening.
