FROM THE DIRECTORS

OY! And we mean OY!

How tough could it possibly be to direct? No hidden morals. No underlying meaning. Plain old fun. Well let us tell you.....this is probably the most difficult show we have ever been involved with. The jokes are there. The sight gags are there. The lines?..... They are all over the place. Can you say timing?

The challenge began when we had to take our little stage and make two adjoining motel rooms. Next came the fact that each of these rooms need 4 working doors. Each a double bed, video equipment and "OY", seven actors.....All on stage at the same time.

We put together a great cast of seasoned, talented actors. This will be no sweat. We have never sweated so much in our lives. After a lot of hard work things literally fell into place. Thank you to all of the actors and our great crew of workers.

Please don't be afraid to laugh out loud. If you miss some of the dialogue you can always buy another ticket and come and see the show again.

Thanks for coming. Please leave with a smile on your face.

Get it? Got it? Good! OY!
